VALUABLE MUSIC BOOKS FOR TEACHERS AND SCHOLARS.

CLARKE'S NEW METHOD FOR REED ORGAN. By WM. H. CLARKE. Price, \$2.50.

This is a very complete and systematic method for the Reed Organ. Mr. Clarke is a practical and successful teacher, a thorough organist, and is acquainted with the mechanical construction of the organ in its smallest details. He is, then, well fitted to write intelligently upon this subject, and in the publication of this new instruction book, he has demonstrated his ability to compile a method which should easily take the lead. The lessons and exercises are graded, and advance the pupil rapidly and progressively; while the recreations have been judiciously chosen from the works of the best masters, and are very gratifying as a means of relaxation from patient and persistent study.

JOHNSON'S PARLOR ORGAN INSTRUCTION BOOK. By A. N. JOHNSON. Price, \$1.50.

It is pleasant to commend such an instruction book as the above. It is so admirably suited to the wants of teachers and pupils alike, is so easy and simple in its instructions, with such pleasing lessons and exercises, that we know that it will give entire satisfaction to one and all. It is written in language plain and directly to the point, explains clearly each lesson as it comes up, and combines in an agreeable way the teaching of the course to be pursued in learning to play sacred, as well as lighter instrumental music.

JOHNSON'S NEW METHOD OF HARMONY. By A. N. JOHNSON. Price, \$1.00.

A diligent study of this method will easily impart a knowledge sufficient for the composition of easy and simple music. It is more especially designed for those who do not care to take a thorough and complete course in Harmony.

JOHNSON'S NEW METHOD OF THOROUGH BASS. By A. N. JOHNSON. Price, \$1.00.

This, the third thorough bass book compiled by Mr. Johnson, explains in the simplest manner possible, the construction of chords, and how to read and play them. It is exactly fitted to the present state of playing and writing of music introducing chords.

PETERS BURROWES' THOROUGH BASS PRIMER AND COMPANION. Price, 75 cents.

Two elementary books in one, which treat of the elements of Thorough Bass in a practical sort of way, with numerous examples illustrative of the several portions of the work. It is a very compact and serviceable book for any one who may wish to gain in a concise form, some little knowledge of this branch of music.

DICTIONARY OF MUSICAL TERMS. By J. STAINER and W. A. BARRETT. Price: Boards, \$4.00; cloth, \$5.00.

This is more than a Dictionary. Besides a multitude of short definitions, there are treatises on every subject of any importance connected with music. It is a complete encyclopedia, and answers every query which can possibly arise in the study of music.

FIVE THOUSAND MUSICAL TERMS. By J. S. ADAMS. Price, 75 cents.

Five Thousand Musical Terms would seem to be sufficient for one person to know and understand. There are, no doubt, a good many more so-called musical terms, but this book contains all that are essential, and that one is likely to run across in the ordinary study of music.

EATON'S NEW METHOD FOR CORNET. In three parts. Price, \$1.50.

Just the book for boys, who want to learn to play this beautiful instrument. At first, you may annoy your neighbors, but persevere; you will soon cease to be "a thorn in the flesh," and by patient practice, become an expert player. A good soloist is at all times in great demand.

RITTER'S HISTORY OF MUSIC. By FREDERIC LOUIS RITTER. In 2 vols. Price: each, \$1.50.

A very readable sketch, in the form of lectures, of the rise and progress of the study of the art of music. They are intensely interesting, with not a dry part to them. You read one lecture, and you are bound to read another; and so on, until you have reached the end. They give you in a concise way, a very good idea of the history of music, which can hardly be obtained from any other source so easily and so quickly.
